

COVID-19 UPDATE

We are deemed an essential business!

All Services are running 'Business as Usual' with extra safety precautions being taken to ensure safety for us and you!

Things we are doing to practice social/physical distancing:

- Key drop located outside the office door
- Call ahead to make an appointment, we will meet you outside
- If you need to stop by unannounced, please use your cell phone to call the office and someone will meet you outside by your car
- If we get inside your vehicle, it will be wiped down with sanitizing wipes before it is returned to you

Now is the PERFECT time to have work done on your car, as it will cause the least amount of inconvenience for you to be without your car.

- Our vendors have told us that they will continue operations as well so we should be able to continue ordering and receiving parts and supplies.
- Insurance Agents are also continuing as an essential business.

All towing and recovery operations are in full operation 24/7
